

About Us

What We Do

At TCG, we support, maintain and enhance the performance of networks, servers, PCs and most everything in between that comprises a Wide Area Network (WAN) or Local Area Network (LAN).

Follow well-defined Best Practices when providing services such as:

- Network Design/Redesign
- System Standardization
- Computer Network & Systems Preventative Maintenance
- Network Security
- Documentation & Knowledge Transfer

Ensure mission critical systems and applications common to most business networks are "rock solid" and operate as designed, such as:

- Email
- Firewalls
- File and Print servers
- Backup systems
- Web-Servers, Intranets and Extranets

Enable our clients to maintain a streamlined staff that is efficiently utilized with quick access to technology

To learn more about TCG's services please call us at 303-632-1954 or visit our website at www.tcginc.com

Trusted Consulting Group, Inc. (TCG) is a privately owned Information Technology (IT) support firm specializing in Business Computing Technology and Infrastructure Solutions

How We Are Different

At TCG we believe in the term "right-sourcing," which is an approach that optimizes the use of both internal and external resources. To complement our customer's in-house staff and truly be a part of a team effort, our highly experienced consultants are guided by the following principles:

- Business objectives drive technology solutions
- Well designed solutions and properly managed project implementations, coupled with the use of the right resources will save time and money
- A staff with good morale will be more productive and remain loyal
- Maximizing system up-time and minimizing unscheduled down-time will have a very positive impact to the bottom line of any business
